## Local Heritage List Selection Criteria

Ref	Criterion	Description
A	Rarity	Is it a rare surviving, or substantially unaltered example of a particular type, form or style of building or materials within the context of the local area?
B	Aesthetic Value	How does the aesthetic or design merit relate to the local character and distinctiveness of the district, including the form or architectural style of the asset, choice of materials and quality of workmanship?
C	Group Value	Does the asset form part of a grouping of assets which contribute positively to local character and distinctiveness?
D	Archaeological Value	Does the site possess archaeological value which informs our understanding of the historic development and past human activity in the district?
E	Archival Interest	Are there significant written or photographic records, historic or more recent, that enhance the significance of the asset? (Whilst of interest, this is unlikely to be considered reason in itself for inclusion to the LHL)
F	Historical Associations	Is the asset associated to any locally or historically significant figures including architects or builders or perhaps historic trades?
G	Landmark Status	Does the asset represent an important landmark within the district either because of its communal or historical value, or its aesthetic value?
H	Social and Communal Value	Does the asset contribute to the social and communal history of the area due to its location, form or use, or better inform our understanding of the social and communal progression of the locality and how this has shaped its local distinctive character?
